

Third Annual Oak Ridge Science Fair

Planning is under way for the Oak Ridge Sunset Rotary Science Fair to be held on February 25 and 26, 2012. Again this year, B&W Technical Services Y-12 will host the Science Fair at its New Hope Center. "Last year was a great success," said Cathy Warmbrod, club president, "with excellent entries, popular prizes and community involvement. We are expecting an increase in participation this year as we are inviting elementary schools from surrounding communities. We are thrilled with the unprecedented support the fair has received from both local businesses and the scientific community. On behalf of the club, I want to thank the generous donors and the participants for their support." This year you will be able to stay up to date with the latest Science Fair news at the Clubs website www.oakridgesunsetrotary.org.
